

GREEN CERTIFIED BASECAMP

GREEN CERTIFIED TECHNOLOGY

The first piece of construction equipment in North America to be awarded the Prestigious Green Seal Certification.

LOWEST OPERATING COSTS

Reduce fuel, fuelling, and support labour by a whopping **60%**!

CERTIFIED EMISSIONS REDUCTIONS

Reduce **(207)** metric tonnes of CO2 per unit per season.

EFFICIENT 3-IN-1 DESIGN

24/7 Smart Controls & Monitoring. Built-in load bank with wet stack prevention program to minimize downtime.

Technical Specifications	BASECAMP
Fuel Type	Diesel
Dimensions	12' 5" L x 5' 6" W x 8' 6" H
Dry Weight	KG: 1,955 LB: 4,300
Engine	Kubota 2.4 Litre Electronic
Fuel Capacity	Litres: 450 Gallons: 118.8
Secondary Containment	110%
Minimum Run Time	48 Hours
Power Generation	27 kW of continuous power
Power Plugs	(3) Twist Locks – 30 Amp (3) GFI – 20 Amp 120V
Light Output	192,000 Lumens
Temp Rise	100°C 180°F
Static Pressure	10 Inch WC
BTU Equivalent	700,000
SCFM	3,250
